Managing Multiple Season Tickets

You can now list multiple Season Tickets for sale together and manage them all in a single account!

Simply follow the below 4 steps:

- Activate your first Season Ticket
- Once you have done this, at the bottom of the page, a link to add your other Season Ticket(s) will show up
- Click on the link and add any other Season Ticket details
- Repeat these steps for each of your Season Tickets

Once you have added all your Season Tickets, you will now be able to list adjacent seats together, so that they can be purchased in one go.

Important Note

If you are selling more than one Season Ticket per game, please note that group listings can only be purchased as groups.

For example, if you are selling 4 consecutive seats in one listing, only a buyer who can and wants to buy 4 seats will be able to purchase this group.

If you want to allow buyers to purchase your tickets separately or in pairs, please list your tickets accordingly, either as individual listings, or as pairs.
